### Diversity

At **Educational Aims**, we believe that diversity improves creativity and accelerates innovation. We value the unique background and experiences everyone brings.

Since different perspectives can fuel the best ideas, we are committed to educational projects that are increasingly diverse and inclusive.

### Service

Clients are at the heart of everything we do, and every decision we make. We are committed to delivering personalized services to all our customers. We carefully listen to our customer feedback across all channels, so that we may continue to develop and improve our products and services. Our dedicated teams go above and beyond expectations to make certain every customer is always happy.

## Durability

**Educational Aims** durability originates with the engineers and designers as they carefully select materials, design the construction of each item, and study the movements, habits, uses and misuses of students. Our products undergo strenuous testing to ensure your learning environments will look and feel new for years to come.

## Environment / Ecology

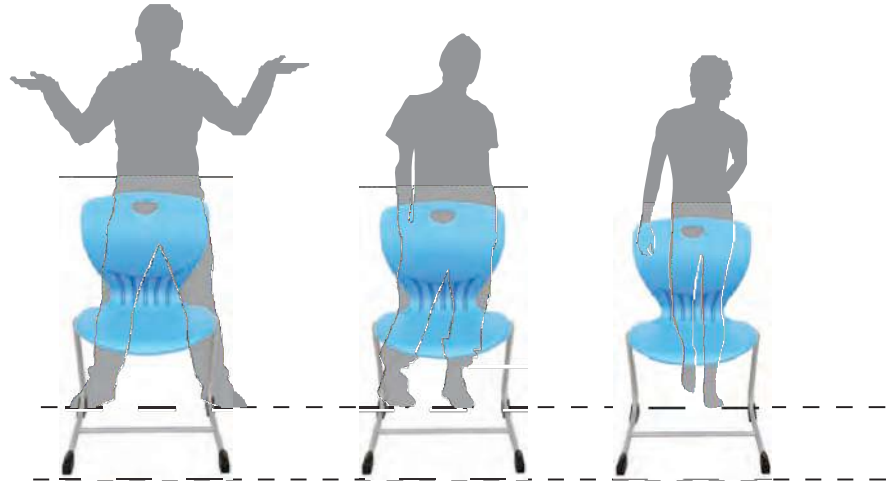

The environmentally friendly designs upholds our global responsibilities. As we attempt to minimize our ecological footprint, we prefer recyclable and sustainable materials in our selection process. With durable products and replaceable parts, together we conserve resources and reduce waste, bettering our environmental impact.

## We design for you

Our team works with you to design the best possible learning environments. With chairs, tables and storage systems designed for the wide range of heights of growing children, for various classroom sizes and uses, and for learning environments beyond the classroom, you will find all you need.

## We produce for you

The finest textures and most durable materials come together to give you a beautiful learning environment that will last a lifetime.

With easily replaceable glides, shells and frames, our products maximize sustainability and minimize maintenance efforts and costs.

### International Furniture Standards

**BS EN 1729**

**BIFMA**

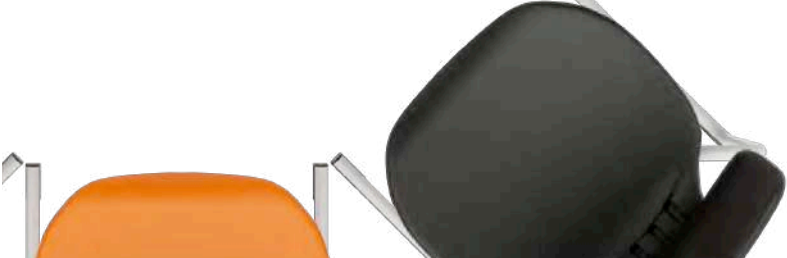

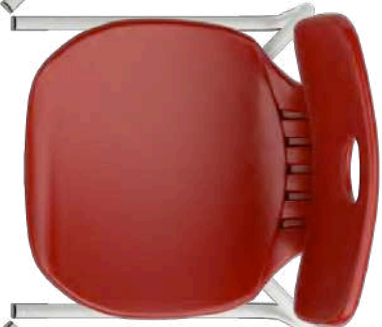

## We proudly serve you

Wherever you are located, we aim to be near you.

To serve all our clients. For us, each client is important.

## Chairs

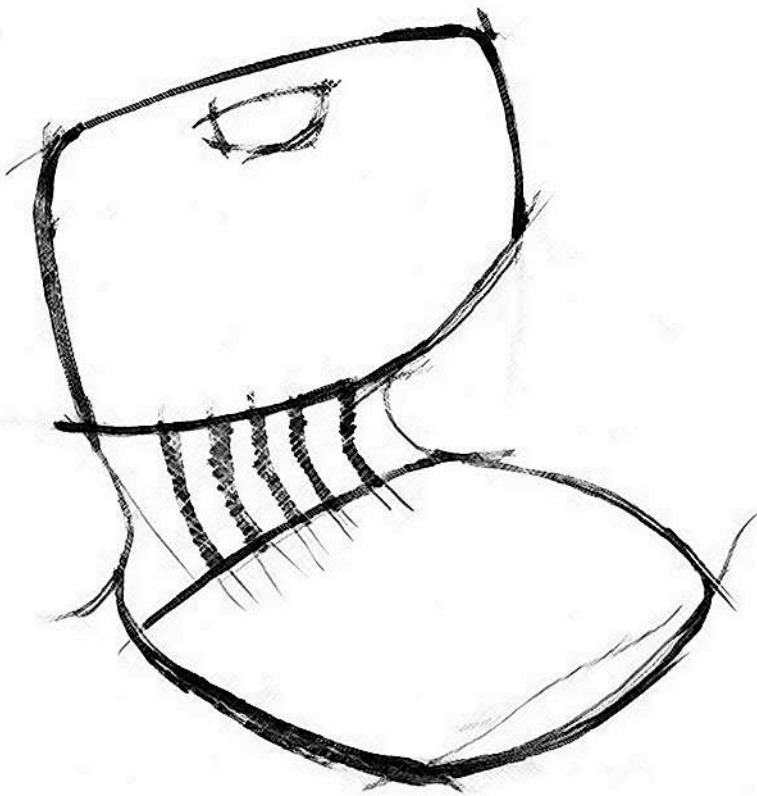

### New Shell

*Ergonomically designed furniture for happy students.*

Its designs are based on human body measurements to offer human body comfort.

---

Growing children need furniture designed for them. Their minds unleash in lively classes, where they can move, and find comfort. Invincible and versatile, their furniture accompanies them on their lifetime journey of exploration and learning. With a long day of schooling, dynamic chairs in dynamic classrooms make the days feel shorter.

The new shell, ergonomically designed for healthier students, productive classrooms, and happy learning environments. Sturdy to withstand student adventures, yet lightweight for quick and easy mobility, the new shell astounds.

# Maxima-C Chair

new shell design

Modern ergonomically designed cantilever chairs absorb the bounce of active children, so teachers don't have to. The robust seat surface is easy to clean and resists scratches. The C-frame makes raising the chairs on desks and tables quick and safe. Glides provide stability and protect floors from abrasion. A convenient grip hole in the seat back makes carrying this lightweight chair easy. The chair is available in 3 seat heights according to DIN EN 1729.
